## CHC30125 Certificate III in Early Childhood Education and Care

### Course Description

This qualification reflects the role of educators in early childhood education and care who work in regulated children's education and care services in Australia. They support children's wellbeing, and development in the context of an approved learning framework. Educators use a range of well-developed skills and knowledge using discretion and judgment when carrying out their work in the context of established policies and procedures. They may work independently or under the guidance of others, though in some contexts that guidance may not be on-site.

### Entry Requirements

There are no formal entry requirements for this qualification, however it is expected that the student would possess reading, writing, numeracy and literacy skills to enable them to complete the qualification at the AQF level. They are also expected to have sound computer skills to enable them to undertake the online course. Students must have access to a regulated children's education and care service in Australia that offers the full range of services required to complete their study and to conduct their work placement. They must also either hold or be eligible to obtain a Blue Card (Qld) or similar approval in other states to work in a regulated children's education and care service in Australia.

### Course delivery

The qualification is delivered through the following:

- Online over a maximum of 12 months. Intakes are rolling.
- RPL over a maximum of 6 months (with gap training if required).

RPL is only offered to existing workers with current experience equivalent to 2 years or more working in the childcare industry. Students are advised of the training and assessment requirements by their trainer/assessor prior to commencement.

### Work Placement

The student will be required to complete a minimum of 160 hours practical placement in a regulated education and care service in Australia that offers the full range of services required to complete your study. It is ultimately the student's obligation to find practical placement in their field of study. Most students will already be working in the industry, however if you are not working and experiencing difficulty, the Institute can assist. Call us to discuss.

### Recognition of Prior Learning

RPL is "the acknowledgement of the skills and knowledge" that you have already gained through previous work, studies, and life experiences that relate to this qualification. If you are granted recognition in a unit/s of competency, you do not have to re-study that unit. If you think you may be eligible to apply for RPL because of your previous work, study and life experiences, please contact the Institute to access your RPL kit.

## Credit Transfer

If you have completed any units from the qualification previously you will be eligible for credit on provision of a verified Qualification/ Record of Results and/or Statement of Attainment.
